**Subject:** [External] Dominion rate increase request

Commissioner Williams, we believe you are uniquely qualified to lead the PSC. And we applaud the PSC decision to delay final action on the recent Dominion rate case. Past experiences with the Commission indicate they may not have adequately contemplated outcomes of final rate increase actions.

We speak for all those affected in these times of economic uncertainty... particularly those in most difficult straits. Many of whom we have met and come to know while helping distribute meals to their homes. Thank you for your attention and support for public input!

Bill and Cheryl Ridings
